

# Main Street

## IMPROVED

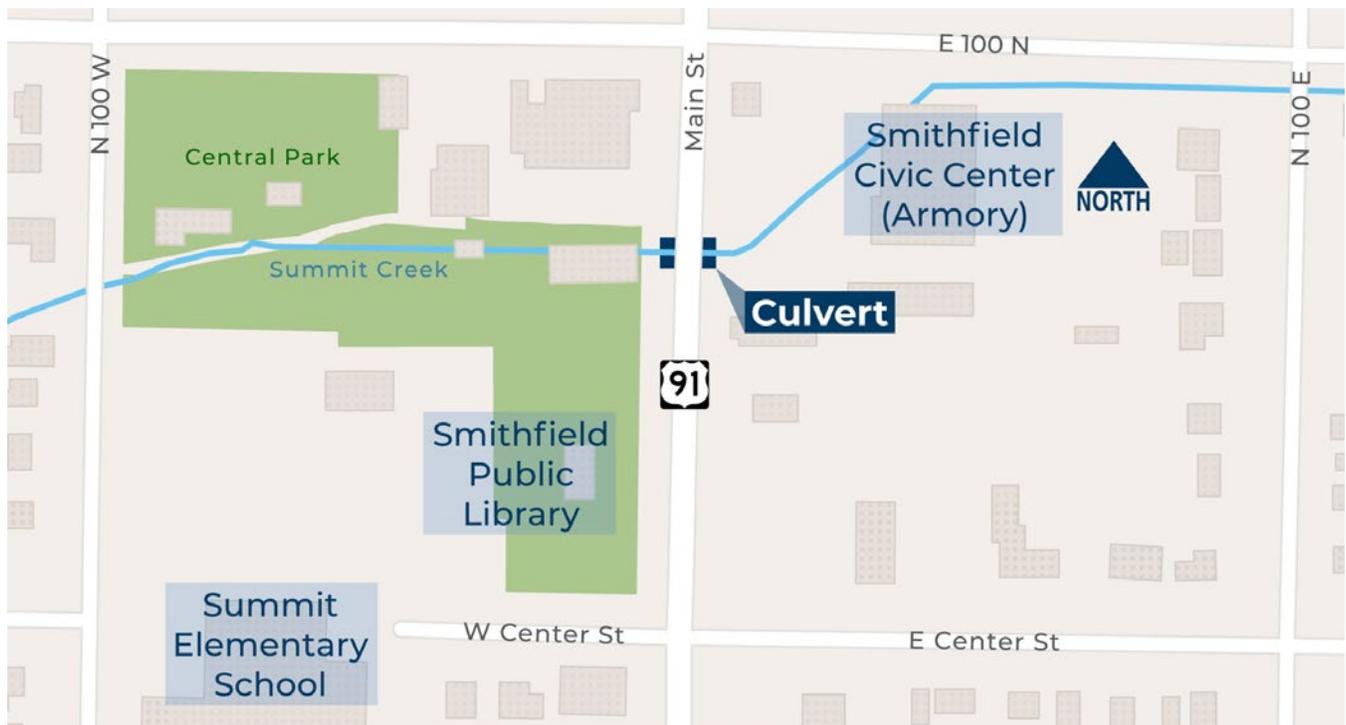

### Summit Creek Culvert Replacement

#### PROJECT OVERVIEW

The Utah Department of Transportation will be replacing the existing box culvert for Summit Creek that crosses beneath US-91 (Smithfield Main Street) near 100 North.

Replacement of the culvert is scheduled to begin mid- to late-January with an anticipated completion date toward the end of April (depending on weather, equipment or other delays).

Expect minor delays, lane closures, and changes in traffic patterns through the work area. Crews will maintain the safe walking route for Summit Elementary School during the project.

#### STAY INFORMED

This project has a dedicated public information team to work with area residents and stakeholders. Please feel free to contact us about this project. We are here to help!
